MESSAGE FROM THE PRESIDENT

Greetings Belforest Water System Members,

While most of you have been busy celebrating the restoration of your Twitter accounts we have been busy with construction projects. No one ever said that providing the most overlooked and under appreciated service would be easy. Belforest Water has been engaged in no fewer than six infrastructure improvement projects in 2022. Here are a few of the highlights:

Construction has begun on our new water treatment facility on Larry Street Road and our production well on County Road 64 near the Belforest School. 2023 will see the completion of these projects plus others that we have launched to provide water to our growing area. We are continuing to see growth and new residents come to our area; and our Board is working diligently to respond to growth with educated, measured responses to additional water capacity and treatment. As a Board, we work hard to be good stewards of our natural resources and look forward to the needs of our system.

On behalf of the Board, we would like to extend our deepest appreciation to the staff at

Belforest Water. They work diligently in all conditions to serve you, our customers, with pure, abundant water. They serve in the trenches and deserve recognition for their service to our community.

From the Board and staff at Belforest Water System, we will you a Merry Christmas and hope you have a prosperous New Year. As always, we remain in your service.

-Charles Dube, President
