MESSAGE FROM THE BOARD PRESIDENT

Greeting Belforest Water Enthusiasts!

As another year flows by we are taking a moment to reflect on the currents that have shaped our work, community and your taps. From infrastructure upgrades that make your morning shower more reliable than ever to capacity upgrades that keep our future clear and flowing, 2025 has been a year of steady progress. So read on about the unsung heroes that keep your water running. Pour yourself a glass of the good stuff and dive into a year's worth of updates and improvements.

Remember that water connects us all, and we are proud to keep that connection crystal clear. Stay hydrated, my friends, and have a joyful Holiday season!

–Charles Dube

METER UPGRADE PROJECT

Our \$4 million Meter Upgrade Project is complete. The new Kamstrup meters have proved to provide consistent, reliable data throughout our system.

PLANNING STAGES

We've acquired a location from Church of the Highlands, which will be in the North Zone of our system. We are currently designing a new tank and pressure boosting station for this site. This will give us more storage as well as boost pressure in the northern areas.

In cooperation with TKC Construction, we have acquired a site for a new well at Savannah Estates.

We are working with the Baldwin County Board of Education to plan a space for a south tank and well at the new school site on Corte Road.
